

University Assistant (Post-Doc)

40 hours/week, for 6 years 01.11.2020

Technische Universität Wien, generally referred to as TU Wien, is located in the heart of Europe, a place where one can experience cultural diversity and international life. Research, teaching and learning have been conducted here in the service of progress for 200 years. TU Wien is amongst Europe's most successful universities of technology and, with over 30,000 students and a staff of about 5,000, is Austria's largest scientific and engineering research and education institution.

The Institute of Visual Computing and Human-Centered Technology, at TU Wien is offering a position as university assistant (Post-doc) for 6 years for 40 hours/week. Expected start: 01.11.2020.

Tasks:

- *You have deep interest in scientific problems and the motivation for independent and goal-oriented research*
- *You bring in your own ideas to shape the research agenda and profile of Ubiquitous Computing research*
- *You participate in teaching, teach independently and supervise students*
- *You develop partnerships, acquire grants, lead and contribute in interdisciplinary scientific projects*
- *You participate in organizational and administrative tasks of the research division, such as planning of lab equipment, representing the group internally and externally with technical presentations and scientific publications*
- *You use this position as launch pad for making the next career step from an individual contributor to a leader in academic research.*

Your profil:

- *You have a university degree and a Ph.D. in computer science or related field.*
- *You have several years of professional experience in national and international ubiquitous computing research, industrial IoT or interaction design*
- *You are experienced in project management and presentations*
- *You are proactive and inspire others with your ideas and your vision*
- *You are courageous to make decisions and represent your views within a high performing team*
- *You have first experience in teaching and publication activities as well as interest and pleasure in research and work/support with students*
- *You are passionate about your ideas and curious about others' feedback and ready to involve a variety of stakeholders in interdisciplinary projects*
- *You have strong verbal and written communication skills in English, knowledge of German is a plus*
- *You are ready for the next career step in academia.*

We offer:

- *Opportunity to shape a new research lab blending HCI with AI, developing novel ubicomp, IoT and digital companion systems*

- *Platform for interacting with leading researchers on international conferences and collaborating in joined projects*
- *A creative environment in one of the most liveable cities in the world*
- *Central location with very good accessibility (U1/U2/U4 Karlsplatz)*

TU Wien is committed to increase female employment in leading scientific positions. Female candidates are explicitly encouraged to apply. Preference will be given when equally qualified.

People with special needs are equally encouraged to apply. In case of any questions, please contact the confidant for disabled persons at the university (contact: gerhard.neustaetter@tuwien.ac.at)

Entry level salary as a postdoctoral researcher is covered by level B1 of the Austrian Collective Agreement for university staff, and receives a minimum of currently EUR 3.889,50/month gross, 14 times/year. Relevant working experiences may increase the monthly income.

We look forward to receiving your application until 15.10.2020

Questions regarding the position should be directed to Prof. Dr. Florian Michahelles by email florian.michahelles@tuwien.ac.at (no applications).

We look forward to receiving your application until 15.10.2020.

Applications should be submitted by email to susanne.pietsch-brousek@tuwien.ac.at
